

Sometimes it's hard to speak with my family. I know what I want to say but it's hard to say it. It's difficult to make friends. I wish I could tell people how I feel. I want to be able to read as quickly as other kids. Sometimes I need more time to think. My stories don't make sense to anyone. Sometimes my teacher thinks I am not listening.

# COMMUNICATION AFFECTS MORE THAN YOU THINK

Speech Language Pathologists and Audiologists can provide diagnosis and support for a range of disorders, from language delays to stuttering to childhood hearing loss.
