

Speech and Hearing BC Policy Statement & Procedures

IV.3

AREA: Standards

SUBJECT: Posting Job Ads

POLICY:

The policy covers the posting of job ads on either the Speech and Hearing BC website or Vibrations publication.

The ads posted will reflect the requirements for the current standard of practice in BC and Canada. At this time, this means that an ad will indicate that the requirements include a “Masters degree in Speech Language Pathology or Audiology” and “registration with the College of Speech and Hearing Health Professionals of BC” as recommended wording.

PROCEDURE:

1. The ads will be reviewed by the Webmaster or the Vibrations editor prior to posting.
2. If an ad indicates requirements below the Canadian standard for practice, this will be brought to the attention of the agency posting the ad and rewording will be suggested. The policy may be reviewed with the agency and rewording may be suggested by the Webmaster or the Vibrations editor.
